

ELECTRONIC BIRTH DEFECT SYSTEM

The Nebraska Department of Health and Human Services has developed and implemented an electronic birth defect registration system to register birth defect records electronically. The intent of electronic registration of birth defect records is to significantly reduce the overall time and effort it takes to register birth defects and provide quicker access to birth defect data.

Our new Electronic Birth Defect System has many advantages.

- ❖ There are no more birth defect abstracts manually to fill out
- ❖ the data is encrypted so confidentiality is not an issue
- ❖ It is less work
- ❖ It is quicker
- ❖ It is user friendly
- ❖ There are drop down lists for reporting facility and birth defects
